✓ Membership benefit

- Available where relevant to the member and the particular programme
- Not normally included in this membership category.

OPPORTUNITIES FOR ALL MEMBERS

Scholarships

All membership categories may apply for relevant scholarship opportunities.

Training

Members receive information about relevant maritime, professional, academic and leadership training opportunities.

Mentoring

Mentoring opportunities may be available according to the purpose and structure of each mentoring programme.

Networking

Members become part of the WIMA Europe community and can build connections across maritime industry, academia, government and related sectors.

International Opportunities

Members receive information about relevant international programmes, exchanges, conferences and development opportunities.

HOW PARTICIPATION WORKS

WIMA Europe activities are designed for different professional interests, career stages and membership groups.

Open Activities: Available to all members.

Targeted Activities: Designed for a particular membership category, professional field or career stage.

Limited-Place Programmes: Scholarships, mentorships, training programmes, study visits, professional exchanges, delegations and similar opportunities may require registration, application or selection.

Special Programmes: Some specialised or externally delivered programmes may have an additional participation fee. This will be communicated before registration.

This approach allows WIMA Europe to provide opportunities that are relevant and valuable to each member, rather than offering the same programme to everyone.

WHICH MEMBERSHIP IS RIGHT FOR YOU?

Are you under 25 and studying, training or beginning your career?

STUDENT & EARLY CAREER - FREE

Is your principal professional role in teaching, academia or research?

ACADEMIC - €20 / YEAR

Are you working professionally in the maritime or related sectors?

INDUSTRY PROFESSIONAL - €100 / YEAR

Connecting People. Developing Skills. Creating Opportunities.
